AMENDMENT

Sir:

In response to the Office Action dated April 12, 2002, please amend the above-identified patent application as follows:

In the Claims:

Please amend claims 7, 8 and 13 to read as set forth below:

7. An apparatus having a readjustment mechanism for readjusting at least one operating parameter of the apparatus, the apparatus comprising:
- a memory;
 - means for storing an average value of a value interval in the memory; and
 - means for overwriting the stored average value of the value interval with a momentary value of the operating parameter wherein, following a renewed readout of the stored average
